

Electric Kettle with Stainless Steel Body

This electric kettle is designed for rapid water boiling. It features a stainless steel body, concealed heating element, removable filter, automatic shut-off, and a 360-degree swivel base.

Product Overview

High-Efficiency Stainless Steel Kettle

This electric kettle is engineered for rapid water boiling, combining a durable stainless steel body with a user-friendly design. It features a concealed heating element to minimize limescale buildup and ensure easier cleaning, alongside a removable filter for water purity. Designed with safety in mind, it includes boil-dry protection and an automatic shut-off function to conserve energy.

Technical Specifications

Voltage	220-240V
