

Electric Kettle with Stainless Steel Construction

This electric kettle is constructed from stainless steel for durability and efficient heating. It features an automatic shut-off function and boil-dry protection for enhanced safety.

Product Overview

Professional Grade Stainless Steel Kettle

This durable stainless steel electric kettle combines efficiency with safety, offering a generous 1.7-liter capacity suitable for professional and household environments. Designed for rapid heating, the concealed stainless steel element ensures easy maintenance and hygiene. Advanced safety features including automatic shut-off and boil-dry protection provide peace of mind during daily operation.

Technical Specifications

Model ID	T-9018
