

Electric Kettle with Water Level Indicator

This is an electric kettle used for boiling water. It includes a water level indicator on the side to easily monitor the water level.

Product Overview

Efficiency Meets Convenience

This electric kettle offers a modern, rounded design that fits perfectly in any office or professional pantry. Featuring a clear, external water level indicator with marked capacity levels, it ensures precision during operation. The flip-top lid and dedicated circular base provide user-friendly handling for daily high-traffic use.
