

# Electric Kettle with Water Level Indicator

This electric kettle is designed for quickly boiling water. It features a clear water level indicator, allowing users to easily monitor the amount of water inside.

## Product Overview

### Efficient Boiling Solution

This 1.7-liter electric kettle is designed for efficiency and ease of use in any professional or hospitality environment. It features a 360-degree cordless design for convenient pouring and a concealed stainless steel heating element for rapid boiling. With integrated safety features like dry boil protection and automatic shut-off, this appliance combines functional reliability with a clean, modern aesthetic.
