

Electric Kettle with Zisha Teapot Design

This electric kettle combines the elegance of a purple clay (zisha) teapot with modern heating technology. It is designed for rapid heating and maintaining water temperature with its integrated control base.

Product Overview

Traditional Craftsmanship Meets Modern Efficiency

This electric kettle seamlessly blends the aesthetic of a classic Zisha (purple sand) teapot with modern rapid-heating technology. Designed for tea enthusiasts who value tradition, it provides a consistent brewing experience while maintaining thermal efficiency. The integrated base features intuitive controls and indicator lights, ensuring ease of use for any professional or personal tea setting.
