

Electric Knapsack Sprayer with Adjustable Nozzle

This electric knapsack sprayer is designed for efficient application of liquids in various settings. Its 16-liter tank and adjustable nozzle ensure effective coverage and versatile spraying patterns.

Product Overview

Professional Electric Knapsack Sprayer

This professional-grade electric knapsack sprayer is designed for efficient and effective application of liquids in agricultural, horticultural, and industrial settings. Featuring a durable and ergonomic design, it ensures comfortable operation during extended use, while the 16-liter tank capacity allows for covering large areas without frequent refills. Powered by a rechargeable battery, it provides consistent spraying pressure and eliminates the need for manual pumping, making it a reliable solution for demanding tasks.

Technical Specifications

Nozzle Versatility

- Fine mist
- Concentrated stream

Tank Capacity	16 L
Power Source	Rechargeable Battery
Pressure Control	Yes

Key Features

Design Highlights

Ergonomic Design • Adjustable Nozzle • Consistent Pressure

Primary Applications	Agriculture, Horticulture, Industrial
