

Electric Manicure and Pedicure Set with Attachments

This comprehensive set includes a variety of attachments for filing, shaping, buffing, and polishing nails. The ergonomic design ensures comfortable handling, while the variable speed settings provide precise control.

Product Overview

Professional Nail Care Solution

This comprehensive electric manicure and pedicure set is designed for versatility and precision, making it suitable for both professional salon environments and personal home use. Featuring an ergonomic design for comfortable handling, the device includes variable speed settings to provide exact control during nail care tasks. The set comes with a variety of interchangeable attachments, allowing users to efficiently file, shape, buff, and polish nails while also removing dead skin and smoothing rough edges.
