Product Overview

Professional Electric Material Cutter

This compact and powerful electric cutter is engineered for precise and efficient cutting of tiles, stone, and masonry. Designed for both professional construction and DIY renovation projects, it features a high-performance motor and an integrated water cooling system to ensure clean, dust-reduced operation while extending blade longevity. With adjustable cutting depth and an ergonomic handle, this tool offers the versatility and comfort required for demanding material processing tasks.

Technical Specifications

Suitable Materials

- Tiles
- Stone
- Masonry

Available Model Numbers

WY1502, WY1503, WY1504, WY1505

Series

Z1E-110

Key Features

Performance Highlights

1 Integrated Water
Cooling System

1 Adjustable
Cutting Depth

Design Advantages

Compact Design • High-Speed Motor • Ergonomic Handle • Dust Reduction
