## Product Overview

### Versatile Food Processing Solution

This electric meat grinder and food processor is designed for high-efficiency food preparation in busy kitchens. Featuring a robust motor and high-quality blade systems, it excels at grinding meat, chopping vegetables, and preparing traditional dishes like fufu. With multiple capacity and material options available, it provides a flexible solution for various culinary requirements.

## Technical Specifications

### Motor Power

**350 W**

Minimum Power

**500 W**

Maximum Power

### Available Bowl Capacities

- 1.2L
- 2.0L
- 3.0L

### Bowl Material Options

Stainless Steel, Glass

## Design and Build

### Construction Features

- Stainless steel double blade system
- Metal connector for long lifetime
- Durable motor construction
- Compact design for easy storage
