Overview

High-Performance Electric Meat Grinder

The AMG196 is a powerful and versatile electric meat grinder designed for efficient household food preparation. Featuring a high-torque copper motor and durable metal internal gearing, it easily processes meat and vegetables with professional-grade consistency. Its multi-functional design supports everything from fine meat grinding and sausage making to vegetable slicing, making it an essential tool for modern kitchens.

Performance & Power

Performance Metrics

3000 W

Peak Power

1.8 kg/min

Output Capacity

2 levels

Speed Settings

Motor Construction

Powerful and efficient pure copper AC universal motor

Voltage Requirement

220~240V 50Hz/60Hz

Technical Construction

Housing Material

Die casting aluminum square housing

Transmission System

Full metal gear box and gears for high coupling accuracy

Cutting Blade

Stainless steel

Grinder Head Size

No. 10 (Large)

Head Connection

Sliding spline shaft connection with unique locked knob design

Functionality

Standard Functions

Meat Grinding, Sausage Making, Kubbe Preparation

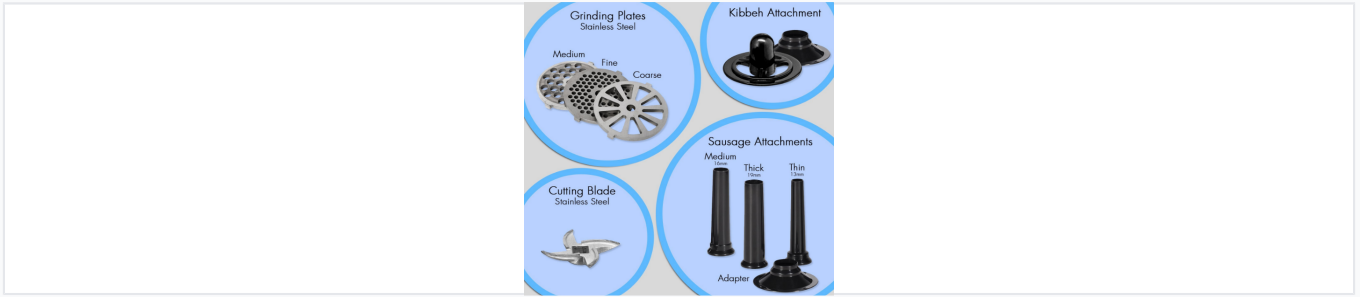

Optional Functions

Vegetable Slicing, Tomato Ketchup Making, Vegetable Shredding

Control Switch

REV / OFF / I / II round switch with reverse function for motor protection

Accessories

Grinding Components

- Hopper plate (Aluminum, Square)
- Grinder Head
- Snake/Auger
- Stainless steel cutting blade
- Fixing ring
- Multiple cutting plates (Fine, Medium, Coarse)
- Sausage attachments (13mm, 16mm, 19mm)
- Kibbeh attachment

Compliance & Safety

Quality Certifications

CE • GS • CB • RoHS • LFGB • EMC • SASO • UL • ISO

Noise Level

Low noise design with proprietary patent
