

Electric Metal Shearing Machine

This electric shearing machine is designed for precision metal cutting. It features a robust construction for durability and stability during operation.

Overview

Precision Electric Shearing Solution

This electric metal shearing machine is engineered for high-precision industrial cutting applications. Featuring a robust construction, it ensures stability and clean, accurate cuts for various metalworking tasks. The unit is equipped with advanced controls, including a graphical touch screen and PLC system, alongside comprehensive safety features like rear guarding and a mobile foot switch for enhanced operator protection.

Technical Specifications

Weight (Net/Gross)

1900 kg
Net Weight

2150 kg
Gross Weight

Max Shearing Thickness	2 mm
Max Shearing Width	2550 mm
Shearing Angle	1.6 °
Strokes per Minute	30 /min
Motor Power	4 kW
Back Gauge Range	630 mm

Features & Accessories

Key Features

- Cutting line lighting
- Mobile 24V foot switch
- Two sides shear blades
- Rear guarding with interlock
- Sheet hold down devices with rolling balls
- Pneumatic sheet catcher
- Motorized back-gauge with manual fine adjustment

Control System	PLC-control, Graphical touch screen
