Overview

Urban Logistics Solution

Designed for the last-mile delivery sector, this pure electric cargo vehicle offers a compact and efficient solution for supermarkets, fast food restaurants, and logistics companies. Its agile dimensions and eco-friendly powertrain make it ideal for navigating urban environments while reducing operational costs. The vehicle features a fully enclosed cargo area to protect goods from the elements, ensuring reliable transport for short-distance hauling.

Performance

Key Performance Metrics

45 km/h
Max Speed

100 km
Max Range

3000 W
Motor Power

Dimensions & Capacity

Dimensions 3600 x 1345 x 1765 mm

Seating Capacity 3 persons

Powertrain & Charging

Battery Options

- 70Ah LiFePO4 (Standard)
- 80Ah LiFePO4 (Standard)
- 100Ah LiFePO4 (Optional)

Charging Time 6 hours (Standard) / 2-3 hours (Fast Charger)

Technical Specifications

Braking System	Hydraulic (Front Disc / Rear Drum)
Suspension	Front Independent / Rear Integral Axle
Tire Specifications	135/70-12

Compliance & Quality

Certifications	EEC, CoC, CE, ISO Quality Management
