

Electric Motorcycle Lithium Battery

Lithium battery designed for electric motorcycles and e-bikes. It delivers more power, a long lifespan, and safe, high-quality performance.

Product Overview

High-Performance Electric Motorcycle Battery

This electric motorcycle battery utilizes premium A-grade ternary lithium 18650 (NCM) cells, ensuring high conversion rates and long service life. It features an advanced, independently developed BMS intelligent management system that provides real-time monitoring and comprehensive safety protections. Designed for durability and reliability, this battery offers consistent performance across a wide temperature range.

Technical Specifications

Cell Technology	Ternary Lithium 18650 (NCM)
Operating Temperature	-20°C to 60°C

Safety & Protection

Safety Protections	Overvoltage Protection, Overcharge Protection, Overdischarge Protection, Overcurrent Protection, Short-circuit Protection, Temperature Protection, Charging Protection
Management System	Yes

Quality Assurance

Insurance Provider	China Pacific Insurance Company
--------------------	---------------------------------

Construction

Build Features

- A-grade ternary lithium cells
- Integrated fixing bracket
- Shaping nickel belt
- Low consolidation resistance
