Product Overview

Modern Electric Mobility

This electric motorcycle combines fashionable design with robust performance, offering an eco-friendly solution for urban commuting and short-distance travel. Featuring a long-range battery and a powerful 800W motor, it ensures a smooth and efficient ride with a focus on rider comfort and energy saving. Its compact build and strong load capacity make it a versatile choice for professional buyers looking for reliable green transportation.

Key Features

Energy Saving, Environmental Protection, Strong Load Capacity, Fashionable Design, Compact

Performance Metrics

Key Performance Metrics

45 km/h
Max Speed

60 km
Range per Charge

800 W
Motor Power

12 °
Grade Ability

Technical Specifications

Technical Details

Feature	Specification
Model	XJL
Battery Type	48/60V 20AH Lead Acid
Controller	12-tube
Charging Time	6-8 Hours
Curb Weight	100 kg
Loading Capacity	Two persons

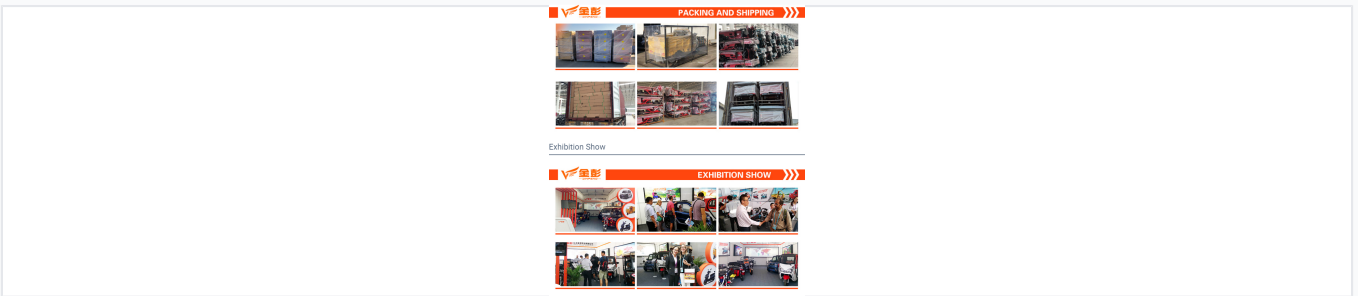

Chassis & Safety

Braking System	Front disc brake & rear drum brake
Tires	3.0-10 tubeless front and rear

Dimensions

Overall Dimensions	1800 * 760 * 1220 mm
--------------------	----------------------

Logistics

Professional packing, shipping processes, and international exhibition displays.

Container Capacity	50 pcs CBU per 40'HQ
