Product Overview

High-Performance Electric Mobility

The Electric Horizon is a cutting-edge electric motorcycle engineered for both urban commuting and recreational riding. It features a sleek, aerodynamic fairing design that minimizes wind resistance for improved stability and efficiency at higher speeds. With a powerful electric motor providing instant torque and an advanced battery system, this motorcycle delivers rapid acceleration and a substantial range for extended journeys.

Performance Metrics

Acceleration	Rapid and smooth
Braking Technology	Front Disc Brakes, Rear Disc Brakes, Regenerative Braking

Technical Specifications

Lighting	LED Lighting
