

Electric Multi-Cooker with Temperature Control

This electric multi-cooker is designed with a transparent glass lid and a non-stick cooking surface. Its temperature control panel allows for precise heat adjustments for optimal cooking.

Product Overview

Versatile Cooking Solution

This electric multi-cooker is designed for efficiency and versatility in professional or home kitchens. Featuring a deep, non-stick cooking surface, it is suitable for a wide range of cooking methods including stewing, frying, and steaming. The integrated temperature control panel allows for precise heat adjustments, while the transparent glass lid enables easy monitoring of the cooking process without releasing essential heat or steam.
