

Electric Multi-Material Mixing Drill

This versatile electric tool is designed for mixing various materials. It is ideal for construction, DIY projects, and industrial applications, ensuring efficient and consistent mixing of paints, mortars, adhesives, and other viscous substances.

Product Overview

Versatile Mixing Solution

This multi-function mixing drill is engineered for high-performance mixing of paints, mortars, adhesives, and other viscous substances. Equipped with a powerful motor and adjustable speed settings, it offers the consistency required for demanding construction and industrial applications. The ergonomic design ensures operator comfort and precision control during extended use.

Key Features

Operation Controls

- Powerful electric motor
- Adjustable speed settings
- Ergonomic handle for grip and control

Suitable Materials

Paint, Mortar, Adhesives, Viscous Materials

Technical Details

Build

Robust Design • Industrial Grade
