Product Overview

Professional Electric Nailer

This high-performance electric nail gun is engineered for efficiency in professional decoration and construction tasks. Featuring a powerful 3800W motor, it delivers consistent fastening without the need for external compressed air systems. The inclusion of a safety switch design ensures secure operation, while the ergonomic build minimizes fatigue during extended use.

Technical Specifications

Power Output

3800 W
Power

15 A
Current

Voltage Compatibility

230-240V, 120V

Performance

Max Firing Speed	30 rpm
Magazine Capacity	100
Compatible Nail Sizes	10-50mm

Features

Safety Features

Safety Switch

Ideal Applications

- Woodworking
- Construction
- Upholstery
- Decoration
