

Electric Non-Stick Frying Pan

This electric frying pan features a round aluminum pan with a non-stick cooking surface. It has a single handle, a stainless steel casting handle, and safety antiskid feet.

Product Overview

Professional Electric Frying Pan

This round electric frying pan is engineered for efficient and versatile cooking in commercial or home environments. Featuring a durable aluminum construction with an injection temperature paint coating, it ensures even heat distribution and a reliable non-stick surface. The design includes a stainless steel casting handle and safety anti-skid feet for stability and ease of use.
