

Electric Oil-Filled Radiator Heater

This electric oil-filled radiator heater features multiple fins and oil channels for efficient heating. It is equipped with tip-over and overheat protection for safety.

Product Overview

Efficient Indoor Heating Solution

The NST-BF series oil-filled radiator heater is designed to provide consistent, reliable warmth for indoor environments. Featuring an adjustable thermostat and multiple heat settings, this unit allows for precise temperature control to suit various needs. Built with safety in mind, it includes overheat protection and is mounted on castors for easy portability, making it a versatile heating solution.

Technical Specifications

Voltage & Frequency	220-240V, 50Hz
Steel Thickness	0.5 mm
Fin Dimensions	145mm x 580mm
Fin Configuration	5 to 15 fins
Oil Channels	6

Features & Performance

Additional Features

- Turbo fan included
- Adjustable thermostat
- Operating switches with indicator lights
- Power cord storage
- Castors for mobility
- Integrated handle

Heat Settings	3
---------------	---

Safety & Compliance

Safety Features

- Overheat safety cut-off

Testing Agencies

TUV • BV

Certifications	CE-LVD, CE-EMC, CB, GS, ErP, RoHS
