

# Electric Overhead Hoist - 200 kg Capacity

This electric hoist provides a compact and powerful lifting solution for industrial and commercial applications. It features a robust motor, durable construction, pendant control, overload protection, and a secure hook mechanism for safe and reliable operation.

## Product Overview

### Compact Electric Lifting Solution

This electric overhead hoist is a professional-grade lifting solution designed for industrial and commercial environments. It features a robust motor and durable construction, ensuring reliable performance in workshops, garages, and construction sites. Equipped with multiple safety mechanisms, including an emergency stop switch and thermal protection, this unit provides safe operation for loads up to 200 kg.

## Performance Metrics

### Rated Lifting Capacity

**100 kg**

Single-line

**200 kg**

Double-line

### Lifting Speed

**8 m/min**

Single-line

**4 m/min**

Double-line

### Lifting Height

**12 m**

Single-line

**6 m**

Double-line

## Technical Specifications

### Power Requirements

Parameter	Value
Rated Voltage	230V ~ 50Hz
Input Power	450W

### Safety Features

Upper/Lower limit device, Anti-reverse winding device, Emergency stop switch, Thermal protection terminal, IP54 Protection Class

## Logistics & Ordering

### Delivery Terms

- Lead time: 30 to 50 days
- FOB Ports: Ningbo, Shanghai

### Payment Terms

L/C at sight • T/T

### Packing Dimensions

42.5 x 28.5 x 28.5 cm

### Net Weight

13 kg

### Minimum Order Quantity

400 to 499 pcs
