

# Electric Paint Sprayer Gun with Adjustable Nozzle

This electric spray gun is suitable for painting and coating applications. It features an adjustable nozzle and detachable paint container.

## Overview

### Professional HVLP Spray Gun

This high-volume, low-pressure (HVLP) electric spray gun is designed for efficiency and precision in various coating applications. It features a versatile nozzle system that allows users to switch between vertical, horizontal, and circular spray patterns, ensuring consistent coverage on surfaces of all sizes. Built for user comfort and maintenance ease, the unit includes an ergonomic overmold handle and a quick-release head for rapid cleaning.

## Performance & Control

### Spray Patterns

- Vertical
- Horizontal
