Product Overview

Professional Electric Spray Gun

This integrated high-atomization electric spray gun is designed for efficiency and ease of use in various coating applications. It features a plug-and-play design that ensures flexibility and portability for both professional and DIY tasks. With its uniform atomization capabilities, it helps save paint while providing consistent, high-quality finishes.

Technical Specifications

Atomization Quality	High Atomization
Operational Features	Plug-and-Play, Portable, Flexible, Ergonomic Handle

Maintenance & Design

Design Advantages

- Detachable paint container
- Adjustable nozzle for spray pattern control
- Lightweight construction
- Ergonomic handle for reduced fatigue

Cleaning & Assembly	Quick disassembly for convenient cleaning
