

Electric Pallet Truck (1.5-2.5T)

Electric pallet trucks are engineered for efficient horizontal pallet transportation and order picking. Models range from 1.5 to 2.5 tons and may include an operator platform.

Overview

Efficient Material Handling

These electric pallet trucks are engineered for reliable horizontal pallet transportation, order picking, and efficient loading/unloading operations. Designed for versatility, the series offers options for both walkie-only and standing operator configurations to suit different warehouse workflows. With robust electric drive systems and ergonomic controls, these trucks provide consistent performance in demanding distribution center environments.

Performance Metrics

Load Capacity Range

1500 kg

Min Capacity

2500 kg

Max Capacity

Travel Speed

3.5 to 5 km/h

Technical Specifications

Model Specifications Comparison

Feature	ES15-100	ES20-130	ES25-140
Load Capacity (kg)	1500	2000	2500
Operator Type	Walkie	Walkie	Walkie Standing
Overall Length (mm)	1630	1750	1916
Turning Radius (mm)	1400	1575	1746
Battery (V/Ah)	24/70	24/210	24/270

Fork Dimensions

- Lowered fork height: 85 mm
- Fork overall width: 540/685 mm

Power & Drive

Drive & Lift Motor Power

DC 0.63-1.5 kW Drive • DC 0.8-2.0 kW Lift
