

# Electric Pallet Truck 1500kg Capacity

This electric pallet truck is designed for the efficient horizontal transportation of palletized goods. Its electric motor reduces manual effort and increases productivity in warehouses and distribution centers.

## Product Overview

### Compact and Reliable Material Handling

The EPT 15 / SPT 15N is an economic walkie-electric pallet truck designed for efficient horizontal transportation of palletized goods. With a rated capacity of 1500kg, it is an ideal solution for low-duty applications in warehouses, distribution centers, and delivery environments. Its compact and lightweight design ensures excellent maneuverability in confined spaces and is particularly suitable for lorries with tail lifts.

## Performance Specifications

### Rated Capacity

**1500 kg**

Rated Capacity

### Application Suitability

Low-duty, Warehouse, Delivery, Lorries with tail lifts

## Technical Features

### Key Features

- Built-in charger for high autonomy
- Battery discharge indicator
- Automatic lift cut-off function
- Additional stabilization via stabilizers
- Electric propulsion and lifting

### Safety Features

Emergency Stop Button • Overload Protection • Automatic Cut-off
