

Electric Panini Press and Contact Grill

This electric panini press and contact grill features adjustable temperature settings and a digital display. Its non-stick cooking plates, removable drip tray, and floating hinge system make it suitable for grilling sandwiches, meats, and vegetables.

Overview

Professional Contact Grill & Panini Press

This high-performance electric contact grill features a spacious 93 square inch cooking area, making it an ideal solution for efficient sandwich preparation and grilling. Equipped with a floating hinge system and precise digital controls, it automatically adjusts to various food thicknesses while maintaining consistent heat. The unit is designed for durability and ease of maintenance, featuring a stainless steel housing, non-stick plates, and an integrated grease drainage system.
