

Electric Pedestal Fan with Adjustable Height

This electric pedestal fan provides indoor air circulation for cooling. It features adjustable height and a three-blade design enclosed in a wire cage, mounted on a tripod base.

Overview

High-Performance Pedestal Fan

This electric pedestal fan is designed for efficient indoor air circulation and cooling. It features a robust three-blade design protected by a durable circular wire cage, ensuring both safety and optimal airflow. With an adjustable telescopic pole and a stable tripod base, this unit offers versatile placement options for various commercial or office environments.
