

Electric Power Router with Variable Speed

This power tool features a 1050W motor and operates at 120V~/60Hz. It offers a variable speed range from 8000 to 30000 min-1.

Overview

High-Performance Electric Power Router

This versatile electric power router is engineered for precision and reliability in professional woodworking environments. Featuring a robust 1050W motor and a wide variable speed range, it adapts seamlessly to various material thicknesses and cutting requirements. Its durable construction and IP2X protection rating ensure consistent performance and operational safety for demanding tasks.

Technical Specifications

Protection Rating

IP2X

Motor Power	1050 W
Power Supply	120V~/60Hz
Variable Speed Range	8000 - 30000 min ⁻¹
Cutting Depth	0 - 35mm

Physical Dimensions

Tool Dimensions	680 x 475mm
Weight	34 - 37.5kg
Package Dimensions	754 x 485 x 330mm

Logistics & Capacity

Container Loading Capacity

Configuration	Quantity
20° Operations	238
40° Operations	511
40°/HQ Operations	552

Capabilities

Supported Material Thickness

- 35mm
- 44mm
