

Electric Pressure Cooker with Mechanical Control

This electric pressure cooker features multiple safety protections and precise control. It is suitable for stewing, braising and simmering, with a stainless steel body and lid for easy cleaning.

Product Overview

Professional Electric Pressure Cooker

This electric pressure cooker features a robust mechanical control system designed for reliability and ease of use in professional or home kitchens. Engineered with eight levels of safety protection, it ensures secure operation while optimizing cooking results. The unit is versatile enough for stewing, braising, and simmering, utilizing precise pressure control programs to maximize nutrient release and flavor.

Technical Specifications

Capacity	5 L
Control Method	Mechanical
Model Series	SY-J40/SY-J50

Design & Construction

Body Material	All-stainless steel
Inner Pot Coating	Double-layer coating
