

Electric Raclette Grill with Stone and Non-Stick Surfaces

This electric raclette grill combines a natural stone cooking surface with a non-stick grill plate for versatile cooking. It includes individual raclette pans and adjustable temperature control for precise and convenient cooking.

Product Overview

Versatile Raclette Experience

This electric raclette grill offers a dual-surface cooking experience, featuring both a natural stone plate and a non-stick grill surface for maximum versatility. Designed for social and interactive dining, it includes individual raclette pans perfect for melting cheese and grilling small ingredients. The adjustable temperature control allows for precise heat management, making it an ideal centerpiece for gatherings.
