

Electric Rebar Bending Machine

This electric rebar bending machine is designed for efficiently bending rebar. It features an angle adjustment handle for precise bending control from 45 to 180 degrees.

Overview

Professional Electric Rebar Bender

The RB-25 is a compact and high-performance electric rebar bending machine designed for efficiency on job sites. It offers precise angle control ranging from 45 to 180 degrees, allowing for versatile reinforcement tasks. Featuring an intuitive band wheel combination system, it ensures perfect compatibility for various rebar diameters, making it an essential tool for construction professionals.

Performance

Bending Angle	45 to 180 degrees
Supported Diameters	D10, D13, D16, D20, D22, D25

Operational Details

Control Interface

- Angle adjust handle
- Power switch
- Cutter switch
- Foot switch connector

Compatibility Table

Drive Wheel Configuration

Rebar Diameter	Drive Wheel	Fixed Wheel
D10	86 (C1)	Special Jig
D13	86 (C1)	Special Jig
D16	132 (1)	58 (C4)
D20	122 (P2)	58 (C4)
D22	85 (C1)	78 (C3)
D25	88 (C1)	78 (C3)

Safety

Usage Precautions

Grounding Required • Keep Dry • Read Manual Before Use
