Product Overview

Professional Rebar Cutting Solution

This powerful and portable electric rebar cutter is engineered for high-efficiency operation on demanding construction sites. Featuring a robust hydraulic system and a high-performance electric motor, it delivers clean, precise cuts with minimal effort. Its compact, ergonomic design ensures excellent maneuverability, making it an essential tool for contractors requiring speed and reliability in tight working spaces.

Technical Specifications

Max Cutting Capacity	25 mm
Max Continuous Cuts	50 cuts
Cooling Period	30 minutes before re-use

Features & Safety

Safety Features

- Protective safety guard
- Clear usage warning labels
- Overheat protection protocol

Key Features

Hydraulic System, Hardened Steel Blades, Portable Design, Ergonomic Handle, Heavy-Duty Motor
