

Electric Rope Hoist

Electric rope hoists are designed for lifting and lowering heavy loads. These hoists feature a robust construction, incorporating a motor, rope drum, and control components.

Product Overview

Versatile Electric Lifting Solution

The CD1 and MD1 type wire rope electric hoist is engineered as a compact, lightweight lifting solution designed for efficiency and ease of use. Its robust construction and versatile design make it an essential tool for industrial and mining enterprises, railways, warehouses, and wharfs. This hoist combines a small physical footprint with powerful performance, ensuring convenient operation for a wide range of heavy-load lifting applications.

Technical Specifications

Key Advantages

- Lightweight structure
- Compact volume
- Wide application range
- Convenient operation

Available Models

CD1, MD1

Applications

Common Industries

Industrial • Mining • Railway • Wharfs • Warehousing
