

Electric Rotary Hammer 26mm 720W

This electric rotary hammer is designed for drilling and demolition tasks. It operates at 220V and delivers 720W of power, achieving a no-load speed of 700 r/min.

電 錘 ELECTRIC ROTARY HAMMER	
型號/Model	XS-26B
額定電壓/ Rated Voltage (V~)	220
額定頻率/ Rated Frequency (Hz)	50
額定輸入功率/ Rated Power Input (W)	720
空載轉速/ No-Load Speed (r/min)	700
最大鑽孔直徑/ Max. Drilling Capacity (mm)	26
淨重/ Net Weight (kg)	4.6

Product Overview

Professional Drilling and Demolition Performance

The XS-26B Electric Rotary Hammer is a robust power tool engineered for demanding drilling and light demolition applications. Featuring a 720W motor, it delivers reliable performance for construction and renovation tasks. With a 26mm drilling capacity and optimized no-load speed, this tool provides the precision and power required by professional tradespeople.

Technical Specifications

Rated Voltage	220 V
Rated Frequency	50 Hz
Rated Power Input	720 W

Performance Metrics

No-Load Speed

700 r/min

No-Load Speed
