

Electric Rotary Hammer 800W, 38mm Capacity

This electric rotary hammer is designed for heavy-duty drilling and demolition tasks. It operates at 220V and 50Hz, delivering a no-load speed of 400 r/min and a maximum drilling capacity of 38mm.

Overview

XS-38 Electric Rotary Hammer

The XS-38 Electric Rotary Hammer is a robust, high-performance power tool engineered for demanding drilling and demolition applications. With an 800W motor, it delivers consistent power for heavy-duty tasks on construction sites. Its optimized design ensures reliable operation, featuring a maximum drilling capacity of 38mm to handle tough masonry and concrete materials effectively.

Technical Specifications

Rated Power Input	800 W
Rated Voltage	220 V
Rated Frequency	50 Hz

Performance Metrics

No-Load Speed

400 r/min

No-Load Speed

Maximum Drilling Capacity	38 mm
