

Electric Rotary Hammer Drill 500W 20mm

This electric rotary hammer is designed for drilling and hammering applications. It operates at a rated voltage of 220V and a frequency of 50Hz.

Product Overview

Professional Performance

The XS-20 Electric Rotary Hammer is a robust and efficient power tool engineered for demanding drilling and hammering tasks. With a 500W power input and a maximum drilling capacity of 20mm, it provides reliable performance for construction and maintenance applications. This compact tool is designed for ease of handling while maintaining the power required for professional-grade results.

Technical Specifications

Rated Power Input	500 W
Rated Voltage	220 V
Rated Frequency	50 Hz

Performance Metrics

No-Load Speed

850 r/min

Speed

Max Drilling Capacity	20 mm
