

Electric Rotary Hammer Drill

This rotary hammer is a powerful tool designed for heavy-duty drilling and demolition tasks. It features a robust motor, providing high impact energy for efficient material removal.

Overview

Professional Rotary Hammer

This heavy-duty rotary hammer is engineered for high-performance drilling and demolition in concrete, masonry, and steel. Featuring a robust 1050W motor and an SDS-plus chuck system, it ensures efficient power transfer and rapid bit changes. It comes complete with a versatile set of drilling and chiseling accessories, all securely stored in a durable blow-molded case.

Technical Specifications

Rated Power

1050 W

Rated Power

Max Drilling Capacity

Material	Capacity
Wood	40mm
Concrete	28mm
Steel	13mm

Impact Rate 4600 r/min

No-Load Speed 950 r/min

Electrical & Compliance

Input Voltage 110V / 220-240V

Frequency 50/60Hz

Certifications CE, FCC

Features & Accessories

Chuck System

SDS Plus

Included Accessories

- 2 x Drill bits
- 2 x Chisels
- Blow-molded carrying case (BMC)
