

Electric Sander Polisher with 110x100mm Pad

This machine-tool is designed for sanding and polishing surfaces. It features a compact design with a comfortable grip handle and a 110mm x 100mm sanding pad.

Product Overview

Professional Electric Sander Polisher

This high-performance electric sander polisher is engineered for precision surfacing tasks across various materials including wood, metal, and plastic. Designed with a compact, ergonomic frame, it ensures maximum user comfort and maneuverability during extended operational periods. Its robust construction guarantees long-term durability, making it an ideal choice for professional workshops and manufacturing applications.

Technical Specifications

Sanding Pad Size	110 x 100 mm
Power Source	Electric

Application

Key Features

- Compact design
- Ergonomic handle
- Robust construction

Material Compatibility	Wood, Metal, Plastic
