

Electric Scooter Lithium Battery Pack

This lithium battery pack is designed for electric scooters and e-bikes. It delivers more power and offers a long lifespan.

Overview

High-Performance Scooter Power Solution

This lithium battery pack is engineered for reliability and safety in electric kick scooters. Utilizing A-grade ternary lithium 18650 (NCM) cells, it features a robust design with low consolidation resistance for high energy conversion rates. The integrated intelligent BMS ensures real-time monitoring and comprehensive protection for long-lasting service life.

Technical Specifications

Operating Temperature

-20 °C Min Temperature	60 °C Max Temperature
----------------------------------	---------------------------------

Cell Technology

Ternary Lithium 18650 (NCM)

Safety & Protection

Insurance Coverage

China Pacific Insurance

Protection Functions

Overvoltage Protection, Overcharge Protection, Overdischarge Protection, Overcurrent Protection, Short-circuit Protection, Temperature Protection, Charging Protection

Battery Management System

Yes
