

Electric Scooter Replacement Wheel

This electric scooter wheel is designed for optimal performance and durability. It features a robust construction with a unique spoke design for enhanced strength and stability.

Overview

Electric Scooter Replacement Wheel

This high-quality replacement wheel is engineered for electric scooters, focusing on durability and consistent performance. Featuring a robust construction and a specialized spoke design, it provides enhanced stability for a smoother ride. Designed to meet precise dimensional standards, this component ensures a reliable fit for various maintenance and repair needs.

Technical Specifications

Compatibility and Dimensions

Product Code	Wheel Size	Axle Size	Bearing Hole Dia.
12012001	12x1.2	63	30
12012003	12x1.2	63	30
12012005	12x1.2	67	30
12012006	12x1.2	67	30

Bearing Hole Diameter

30 mm
