

# Electric Scooter with 1000W Brushless Motor

This electric scooter features a 1000W brushless motor and can reach a maximum speed of 45-50km/h. It has a range of 45-50km on a single charge.

## Overview

The EAGLE-4 features a robust frame and aerodynamic body for a stable and comfortable urban ride.

### Urban Mobility Solution

This high-performance electric scooter is engineered for efficient urban commuting, combining a robust frame with a powerful 1000W brushless motor. Designed for stability and rider comfort, it features advanced hydraulic suspension and responsive disc braking systems for enhanced safety. With a practical range and modern design, it offers a reliable and eco-friendly transportation alternative for city environments.

## Performance Metrics

### Performance Highlights

<b>1000 W</b> Motor Power	<b>50 km/h</b> Max Speed	<b>50 km</b> Max Range	<b>8 hours</b> Max Charge Time
