

Electric Scooter with Pedal Assist

This electric scooter features both a motor and pedals for flexible riding. It includes a front basket, comfortable seat, and rear rack with backrest.

Overview

Electric Scooter with Pedal Assist

This versatile electric scooter features a convenient pedal-assist system, allowing for both electric-powered travel and manual pedaling. Designed for practicality, it includes a front storage basket, a comfortable seat, and a rear rack with a backrest. Its step-through frame ensures easy mounting and dismounting, while the integrated suspension system provides a smoother ride for daily commuting.
