

Electric Scooter with Pedal Assist

This electric scooter is equipped with a hub motor and pedal assist. It is designed for efficient urban commuting and short-distance travel.

Product Overview

Urban Commuter Electric Scooter

This electric scooter with pedal assist is designed for efficient urban commuting and short-distance travel. It features a robust 350W brushless hub motor and a reliable lead-acid battery system, ensuring consistent performance for daily transport. With a comfortable seat, backrest, and integrated front basket, it combines practicality with ease of use for professional buyers.

Technical Specifications

Motor Power	350 W
Motor Type	Brushless hub motor
Battery Type	Lead-acid
Battery Voltage	48 V
Battery Capacity	20 Ah

Performance Metrics

Key Performance Metrics

30 km/h

Max Speed

40 km

Max Range

100 kg

Loading Capacity

Charging Time	6-8 hours
Battery Cycle Life	300-500 times

Physical Attributes

Weight Specifications

- Net Weight: 35 kg
- Gross Weight: 45 kg

Brake System	Drum Brake
