

Electric Security Patrol Vehicle

This electric patrol vehicle is designed for security and surveillance purposes. Its compact design ensures maneuverability, while the electric motor provides quiet and emission-free operation, complemented by a roof-mounted light bar for increased visibility.

Overview

Designed for Security and Surveillance

This electric security patrol vehicle is engineered for efficient, quiet, and emission-free operation in sensitive environments. Its compact design ensures excellent maneuverability, making it ideal for patrolling campuses, parks, and large facilities. Equipped with a roof-mounted light bar for high visibility and durable construction, it provides a reliable and cost-effective solution for security personnel.

Performance & Features

Powertrain	Electric
Key Features	Quiet Operation, Zero Emissions, Compact Design, High Visibility
Seating Capacity	2 persons

Equipment

Standard Equipment

- Roof-mounted light bar
- Steering wheel
- Intuitive control panel
