

Electric Sightseeing Car, 11-Passenger, 80km Range

The electric sightseeing car has a net weight of 950kg and dimensions of 4080mm x 1430mm x 1940mm. Powered by a 4kW motor and a 48V/220Ah battery, it achieves a max speed of 30km/h and a 80km range.

Overview

Designed for Efficiency and Comfort

This 11-passenger electric sightseeing car is engineered for reliable performance in tourism and transport applications. With a robust 4kW motor and a durable 48V/220Ah lead-acid battery system, it offers a practical 80km range on a single charge. Its compact design and 25% climbing capability make it an ideal solution for navigating parks, resorts, and large campuses with ease.
