

Electric Slotting Machine

This electric slotting machine is designed for creating precise slots and grooves in various materials. It features adjustable depth control and an integrated dust extraction port for maintaining a clean workspace.

Overview

Professional Electric Slotting Machine

This electric slotting machine is a high-performance tool designed for precision grooving in demanding professional environments. Featuring a powerful 1600W motor, it delivers consistent results in materials like stone and wood. Its adjustable settings and ergonomic build make it an ideal solution for construction and fabrication tasks requiring clean, accurate channels.

Technical Specifications

Rated Input Power

1600 W

Rated Power

Performance Metrics

Metric	Value
Max Grooving Depth	30 mm
Grooving Width	10 - 45 mm
No-Load Speed	11000 r/min

Electrical Standards

Electrical Requirements

- Rated Voltage: 110/220V
- Frequency: 50/60Hz

Packaging and Logistics

Logistics Information

Property	Value
Pieces per Carton	3
Carton Dimensions	73 x 32 x 33 cm
Net Weight	4.7 kg
Gross Weight	17.6 kg
