

Electric Space Heater

This electric space heater is designed to provide warmth in indoor spaces. It features a protective metal grid and multiple safety certifications.

Product Overview

Efficient Heating Solution

This electric space heater offers versatile comfort with two adjustable heating settings of 500W and 1000W, ensuring both economical operation and instant warmth. Designed with safety in mind, it includes a tip-over switch and utilizes reliable quartz tube heating technology. The integrated turbo fan helps distribute heat evenly, making it an efficient choice for various indoor environments.
