

Electric Space Heater with Dual Power Settings

This electric space heater provides focused warmth in personal spaces. It features two heating elements and dual power switches for customized comfort.

Product Overview

Efficient Portable Heating

This compact electric space heater is designed for efficiency and safety, making it an ideal heating solution for professional environments. Featuring dual power settings of 400W and 800W, it offers flexible control over energy consumption while maintaining high heat output. The unit includes a cool-touch cabinet and a convenient carry handle, ensuring portability and safe handling during operation.

Performance & Power

Dual Power Settings

400 W

Low Heat

800 W

High Heat

Safety & Compliance

Safety Features

- Safety tip-over switch
- Cool-touch cabinet
- High-temperature-resistant plastic housing

Certifications

GS • CE • ETL • SAA • RoHS • SASO • CB

Design & Build

Portability	Yes
Housing Material	High-temperature-resistant plastic
