

Electric Space Heater with Multiple Heat Settings

This electric space heater provides adjustable warmth with multiple heat settings. It includes a safety tip-over switch and cool-touch housing for safe operation.

Overview

Efficient Radiant Heating

This electric space heater provides versatile heating solutions for residential or office environments using wide-angle radiant heat reflectors. Equipped with four distinct heating elements, it allows users to adjust power output from 400W up to 1600W for customized warmth. Designed with user safety in mind, it includes a cool-touch housing and a tip-over safety switch, making it a reliable choice for supplemental heating.

Performance

Heating Power

1600 W

Maximum Power

4 pcs

Heating Elements
