

Electric Spice Mill with Adjustable Coarseness

This electric mill effortlessly grinds salt, pepper, and other spices with a one-button operation. It features adjustable coarseness settings to customize the grind from fine to coarse.

Product Overview

Professional Electric Spice Grinder

This electric salt and pepper mill is designed for effortless seasoning in professional kitchen environments. Crafted with a durable stainless steel shell and a clear window, it combines longevity with practical visibility. The integrated ceramic grinding core ensures consistent performance, while the adjustable coarseness settings allow for precise control over your spice texture.
